We all know people who pass through our lives and make "A Place in Our Hearts". Sandy was a lovely lady who was always such a joy to be with, especially in the dance community. Sandy passed away from pancreatic cancer on October 31, 2007. At her memorial service, a friend of her son made a profound observation; "If I could be as enthusiastic about anything as much as Sandy was enthusiastic about everything I would be happy." That describes Sandy perfectly. We will miss her very much. jm
